| about us

Bouffard & McFarland Builders has been a premier custom home builder in the Lewiston Auburn Area for over 30 years. Our principals, Reginald Bouffard and Gary McFarland, have more than 50 years of combined experience in the industry.

Our mission is to help you build the home of your dreams. Whether you come in with a detailed, well laid out vision, or you have no idea what you like, we can help make your

dreams a reality. We work one on one with you to design the perfect home for your family. You will work with our architect to ensure that all your needs are catered for, and that every detail is exactly right.

We take pride in the high quality construction that goes into each one of our homes. A Bouffard & McFarland home is something that our customers take great pride in owning, and showing off to their friends and family. Our staff

and subcontractors have been working with our us from the beginning. They have earned the trust of our customers because of their excellent work. From painters to framers, from drywall work to plumbing and electrical work, we build with the same crew. We have kept turnover very close to zero, something many builders cannot claim. Working with the same team guarantees consistency in quality. Our craftsmen have perfected their craft, they "Wow" our customers time and time again.

Bouffard & McFarland Builders specializes in building custom homes. We work with you to create a unique home design that reflects your personal tastes, while meeting your family's daily living needs. Our architect will work with you one-on-one to design the home of your dreams with your budget in mind. Our process revolves around your needs. We want to build a home you are delighted to call your own.

CUSTOM HOME EXPERTS

“

I can't even begin to thank you for the beautiful dream home you built for us. What a great experience to work with you both and what a superb crew you have. It is a truly amazing house and so beautiful.

Words can't even express our gratitude and appreciation.

- Carrie Haynes

Many builders charge extra for providing architectural services. At Bouffard & McFarland Builders, we do things differently. We offer architect services to all our customers free of charge. Our architect can start from scratch, or modify an existing floor plan. We make sure that we engage you at every step so that we can develop a home design you are pleased with. By working so closely with our architect and our principals, you have the assurance that we will build the home of your dreams. The bottom line is that it's your home and we don't want to build it without you.

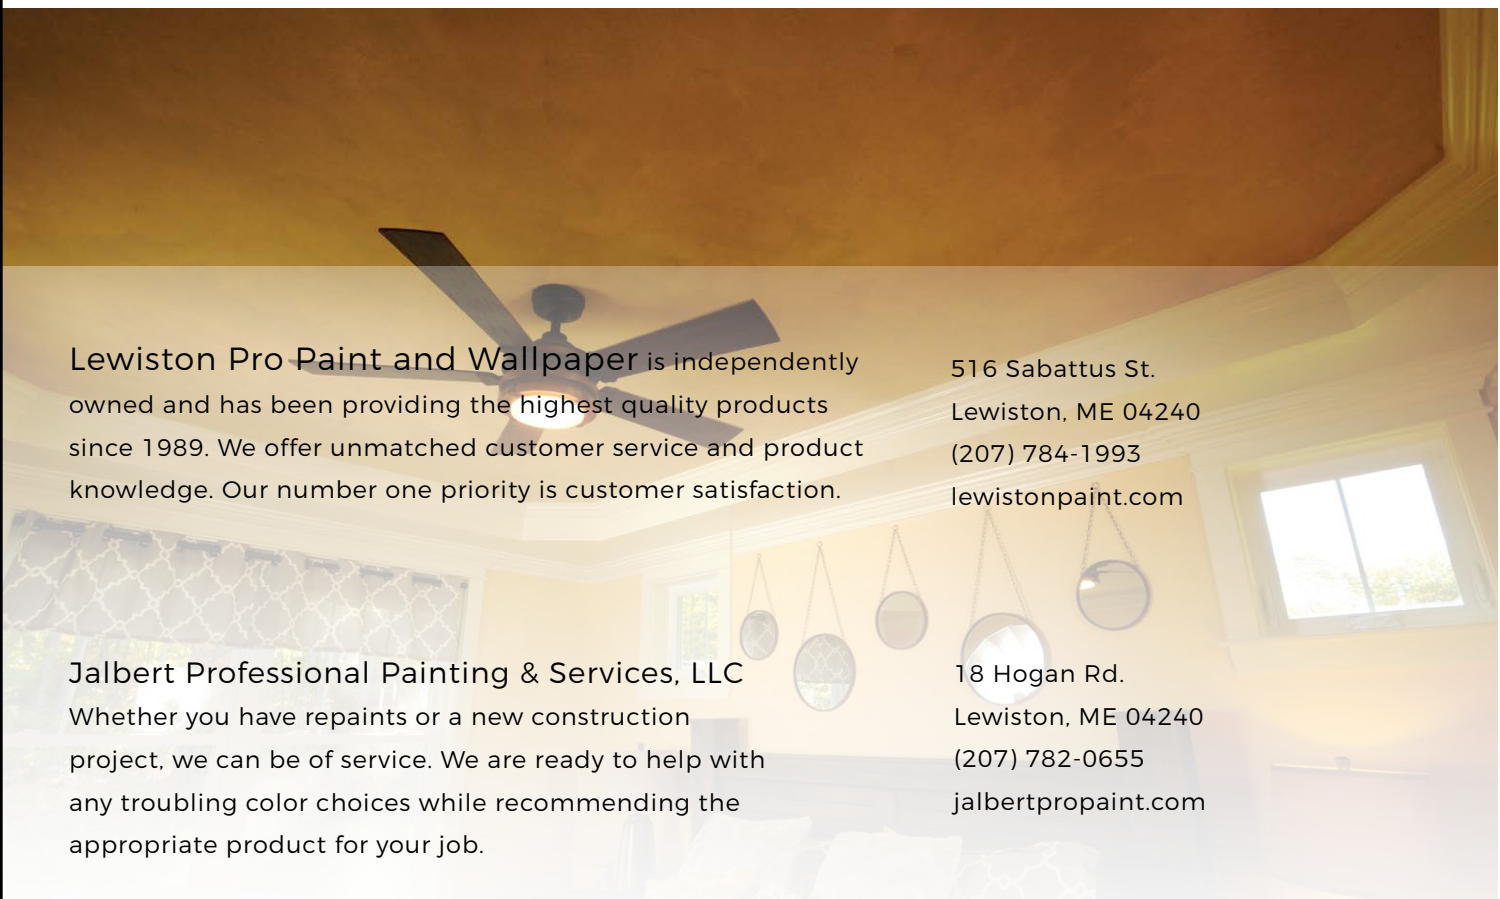

We whole-heartedly recommend Bouffard and Mcfarland Builders.

They not only care about the homes they build but also care deeply that their clients are happy.

- April Joyce & E.J. Ferguson
